

FENCE REQUIREMENTS

1. Submit a completed and signed Building Permit Application
2. Submit a boundary survey indicating the location of the new fence in red and indicate any existing fence in black.
3. Note on survey the location of any and all gates.
4. The clean side of fence must face neighbors. Post will always be to the inside of fence (when metal or wood).
5. Fence may not exceed 6 feet in height. They may be up to 8 feet in height if the top 2 feet of fence are constructed of lattice.
6. Post holes must be approximately 30" in depth.
7. Fence must be located within your property, within 10 feet of any street intersection and 5 feet from the curb line (in case of a corner lot.)
8. Fences may not extend beyond the front yard building line.

Please call **314-962-4800** for a post hole inspection after holes are dug and before concrete is poured.
