

# CONSTRUCTION WASTE MANAGEMENT PLAN

The 2016 California Green Building Standards Code (Cal Green Code) is effective January 1, 2017. The Cal Green Code, Section 4.408.2 and 5.408.2 requires all projects to have a Construction Waste Management Plan (CWMP). The CWMP is to document the project's overall waste management effort to achieve a 65% waste reduction of waste and debris from the landfill.

The City's franchised waste hauler, CR&R Environmental services will provide assistance to Contractor's in developing and implementing a Construction Waste Management Plan. Should you have any questions regarding this form, or the Construction Waste Management Plan, please call CR&R Environmental Services at (760) 482-5656.

Contractor Name: \_\_\_\_\_ Address: \_\_\_\_\_

Contact Person Name: \_\_\_\_\_ Phone No.: \_\_\_\_\_
